Dear Mr. Williams:

Re: Modification Request for
NPDES General Permit No. ING490011
Martin Marietta Materials Cloverdale Quarry
2010 East County Road 800 South
Cloverdale, Indiana
Putnam County

Your NPDES permit application submittal dated August 9, 2010, and received by our office on August 17, 2010, requesting modification of the above-referenced permit, has been reviewed. The submittal requested that existing Outfall 003 (latitude 39°, 32', 10", longitude 86°, 49', 01", discharging to Limestone Creek) be deleted from the permit. Your request has been processed in accordance with Section 402 and 405 of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, et seq.), and IDEM's permitting authority under IC 13-15. Our office has received confirmation from IDEM's site inspector that there is no mining activity in the area where outfall 003 would discharge, and hence this outfall can be dropped from the permit. Therefore your petition to delete Outfall 003 from NPDES permit ING490011 has been approved in accordance with Indiana Rules promulgated under 327 IAC15-12. Coverage for the facility will now include the outfalls listed on Attachment 1.

The NPDES general permit identification number assigned to this facility in the previous approval will continue to apply, as will all other testing and reporting that are required under 327 IAC 15-12 using the forms that were sent to you previously. Should you need additional copies of this form it is also available on the internet at the following web site:

<http://www.in.gov/idem/5104.htm>

327 IAC 15-7 is also available on the internet at the following website:

<http://www.in.gov/idem/4087.htm>

Mr. D. Max Williams

Additionally, you will continue to receive the computer generated preprinted federal NPDES DMR forms. Both the state and federal forms need to be completed and submitted on a routine basis. If you do not receive the preprinted DMR forms in a timely manner, please call this office at 317-232-8670.

These modifications shall become effective on **October 1, 2010**, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under 327 IAC 15-12 for all remaining outfalls remains effective, and will expire on **February 28, 2015**. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that any person who is adversely affected or aggrieved by approval under the cited NPDES general permit rule may, within eighteen (18) days from the mailing date of this notification, appeal this acceptance by filing a written petition for administrative review with the Office of Environmental Adjudication, in accordance with IC 4-21.5-3-7. This petition constitutes a request for an adjudicatory hearing. The procedure for appeal is outlined in more detail on the attached page.

The Office of Environmental Adjudication will provide parties who request review of this approval with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

If you have any questions regarding this letter, please contact Ms. Sheri L. Jordan of our office at (317) 232-8703.

Sincerely,

Catherine Hess, Chief
